

Term by Term Objectives

Stage Four

Stage Four Overview

	Term 1			Term 2			
Autumn	Number – Place Value	Number – Addition and Subtraction		Geometry – Angles	Measures - Perimeter	Number – Handling Data	Number – Partitioning
	Term 3			Term 4			
Spring	Number – Multiplication and Division	Number - Sequences	Measures - Area	Geometry – Shapes and Symmetry	Measures – Time	Measures – Conversion	
	Term 5				Term 6		
Summer	Geometry – Position and Direction	Number – Fractions		Measures – Money	Number – Decimals		Measures – Area and Perimeter

Stage Four Long Term Plan: Autumn

Term 1		Term 2			
<p>Number – place value</p> <ul style="list-style-type: none"> Count in multiples of 6, 7, 9. 25 and 1000. Find 0.1, 1, 10, 100 or 1000 more or less than a given number. Count backwards through zero to include negative numbers. Recognise the place value of each digit in a four-digit number (thousands, hundreds, tens and ones) Order and compare numbers beyond 1000. Identify, represent and estimate numbers using different representations. Round any number to the nearest 10, 100 or 1000. Round decimals (1.d.p) to the nearest whole number. Solve number and practical problems that involve all of the above and with increasingly large positive numbers. Read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value. Order temperatures including those below 0°C. 	<p>Number- addition and subtraction Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate.</p> <p>Estimate and use inverse operations to check answers to a calculation.</p> <p>Solve addition and subtraction two step problems in contexts, deciding which operations and methods to use and why.</p> <p>Add and subtract mentally combinations of 2 and 3 digit numbers and decimals to 1 decimal place.</p>	<p>Geometry: Angles Identify acute and obtuse angles and compare and order angles up to two right angles by size.</p>	<p>Measures: Measure and calculate the perimeter of a rectilinear figure (including squares) in cm and m</p>	<p>Statistics Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.</p> <p>Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.</p> <p>Use a variety of sorting diagrams to compare and classify numbers based on their properties and size.</p>	<p>Number – Partitioning Can partition numbers in different ways</p> <p>Can use partitioning to double and halve any number, including decimal to one decimal place.</p>

Stage Four Long Term Plan: Spring

Term 3			Term 4			
<p>Number – multiplication and division</p> <ul style="list-style-type: none"> Recall and use multiplication and division facts for multiplication tables up to 12 x 12. Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers. Recognise and use factor pairs and commutativity in mental calculations. Multiply two digit and three digit numbers by a one digit number using formal written layout. Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects. Divide numbers up to 3 digits by a one digit number using the formal written method of short division and interpret remainders appropriately for the context. 	<p>Number – Sequences</p> <p>Describe and extend number sequences involving counting on or back in different steps, including sequences with multiplication and division steps.</p>	<p>Measurement- Area</p> <p>Find the area of rectilinear shapes by counting squares.</p>	<p>Geometry: Shape and symmetry</p> <p>Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes.</p> <p>Identify lines of symmetry in 2D shapes presented in different orientations.</p> <p>Complete a simple symmetric figure with respect to a specific line of symmetry.</p>	<p>Time</p> <p>Convert between different units of measure e.g. hour to minute.</p> <p>Read, write & convert time between analogue and digital 12 and 14 hour clocks.</p> <p>Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days</p>	<p>Measures: Conversion</p> <p>Convert between different units of measure e.g. kilometre to metre.</p>	<p>Time at the beginning or end of the term for consolidation, gap filling, seasonal activities, assessments, etc</p>

Term by Term Objectives

Stage Four

Stage Four Long Term Plan: Summer

Term 5		Term 6		
<p>Geometry- Position and Direction Describe positions on a 2D grid as coordinates in the first quadrant.</p> <p>Describe movements between positions as translations of a given unit to the left/ right and up/ down.</p> <p>Plot specified points and draw sides to complete a given polygon.</p>	<p>Fractions Recognise and show, using diagrams, families of common equivalent fractions.</p> <p>Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.</p> <p>Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number.</p> <p>Add and subtract fractions with the same denominator.</p>	<p>Measurement- Money Solve simple measure and money problems involving fractions and decimals to two decimal places.</p> <p>Estimate, compare and calculate different measures, including money in pounds and pence.</p>	<p>Decimals Recognise and write decimal equivalents of any number of tenths or hundredths.</p> <p>Recognise and write decimal equivalents to $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$</p> <p>Find the effect of dividing a one or two-digit number by 10 or 100, identifying the value of the digits in the answer as ones, tenths and hundredths</p> <p>Round decimals with one decimal place to the nearest whole number.</p> <p>Compare numbers with the same number of decimal places up to two decimal places.</p> <p>Can write amounts of money using decimal notation.</p>	<p>Measurement: Area and Perimeter Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres</p> <p>Find the area of rectilinear shapes by counting squares</p>
