

The Priory School Pupil Outcomes 2019 – 2020

Data collection for the academic year 2019 – 2020 was not conducted in full. As of March 20th, schools were formally closed in response to the coronavirus pandemic. From this time school was only attended by a small number of vulnerable pupils and those whose parents were classed as critical workers. Acknowledging this the below summary analyses data collected between September 2019 and March 2020 with an amended target proportionate for this period.
